Student of the Week
This week’s Student of the Week award goes to Des’Lea Baxter Jukes. Des’Lea has been showing very friendly behavior to her peers and working hard in class. Des’Lea has a very positive attitude and is a pleasure to teach. Congratulations Des’Lea on your kind actions towards other students this week!

The Scientwists
The children have had a fantastic day today with the Scientwists. The children have learnt lots and been thoroughly engaged in the investigations. The students participated in a ‘Helicopters & Borers’ workshop and they also created a mural of the Murray River.

AASC
Today is our last visit to Deni Stadium for gymnastics. Next Tuesday we will have gymnastics at school for After School Sports and we would like to invite you to watch a presentation of some of the skills that the students have been learning this term. Please arrive a little early at 4:10pm next Tuesday to enjoy the demonstration.

Home Reading
Each morning we listen to the students read their ‘home readers’ before school and swap them over. I am asking once again for some help to listen to the students read during the 20 minutes before school starts. If you can spare some time regularly or just occasionally I would really appreciate your support. If you know anyone else in the community who may be able to assist in listening to children read could you please invite them to come and see me?

Thank You
A belated thank you to Robin McClay for coming to speak to the children recently. Robin discussed some of the changes that have occurred on his farm due to the drought over the past few years and presented a slide show of pictures to show the children. It was lovely to see some green grass in some of the very recent shots. Thanks Robin.

Naplan
Naplan results will be sent home tomorrow for year 3 and 5 students.
K-2 Homework
Just a reminder that in the early years of school most students will need some assistance to complete their homework tasks. Could parents please check the homework before it is handed in on Friday, to ensure that the tasks are complete? It is a good opportunity to see if there are any areas with which your child needs some extra help. Also if students could bring in their sight word books with their home readers, we will try and give them extra opportunities at school to practice their words.

K-2 News topics
This week’s topic is to teach a game. Students may bring in equipment if needed, but they need to be able to explain it clearly enough for everyone to be able to play.

Canteen Duty
Next week our lucky parent is R Landini.

Kath Powderly
Kath Powderly from Best Street Studios in Wagga recently spent two days at Wakool Burraboi making clay sculptures with the children. Senior students from Moulamein PS joined in for a workshop and in the evening community members were also invited to take advantage of this fantastic opportunity. Kath specialises in ceramic, mosaic, drawing, painting and figurative sculpture and worked closely with students and adults to create amazing and unique chooks, owls, fish and pears. Kath was highly supported by our own specialist art teachers Julie Heywood and Vicky Lowry. Your Community Cares enabled this extraordinary opportunity for our students and community members and we are most grateful for their support. Visual and Creative Arts are highly valued and strongly developed at Wakool Burraboi PS. The artworks created with Kath will be on display at our annual Art Spectacular in October, along with many other impressive art pieces created by the children throughout the year.
